

MICROCLEAN

This unique cleaning system capitalizes on Cold Jet's patented shaved ice and feeder technologies to deliver a complete precision cleaning solution. It is an ergonomic and intuitive system that utilizes a readily available blast medium, and is fast, effective and proven reliable. Furthermore, unlike any other blast system available today, its unparalleled low air and ice consumption provides for cost-effective operation in an almost noise-free environment.

The dry ice blasting system includes one length each of dry ice blast and air hose, and customer-specified dry ice blasting applicator and a set of 3 nozzles (blue, white & yellow - 6" (15 cm) or 9" (23 cm) upon request).

*Recommended Block Size: 6" x 6" x 12"
